Maximize small spaces.

Optimize office space utilization with Neat Board 32's 140° wide-angle camera and four beamforming microphones, which empower you to include more people in small meeting rooms.

Neat Board 32 doubles as a 4K monitor and docking station. Connect to your laptop via USB-C to take advantage of Neat's built-in audio and video capabilities, ideal for those who need premium features without the clutter.

Connect to any platform.

Neat Board 32 natively supports leading video meeting platforms, BYOD, and third-party business and video apps across shared spaces, providing flexibility in how you run your meetings.

Five ways to suit your workflow.

Neat Board 32 adapts to how and where you work. It includes a sleek table stand and all necessary cables for a fast and easy setup. It also includes a privacy cover for peace of mind.

Set it on your desk, clamp it to a table, or mount it on the wall or a VESA-compatible desk mount. Neat Board 32 adapts to your space with flexible attachment options so you can position it just the way you like, making it easy to integrate into any workspace.

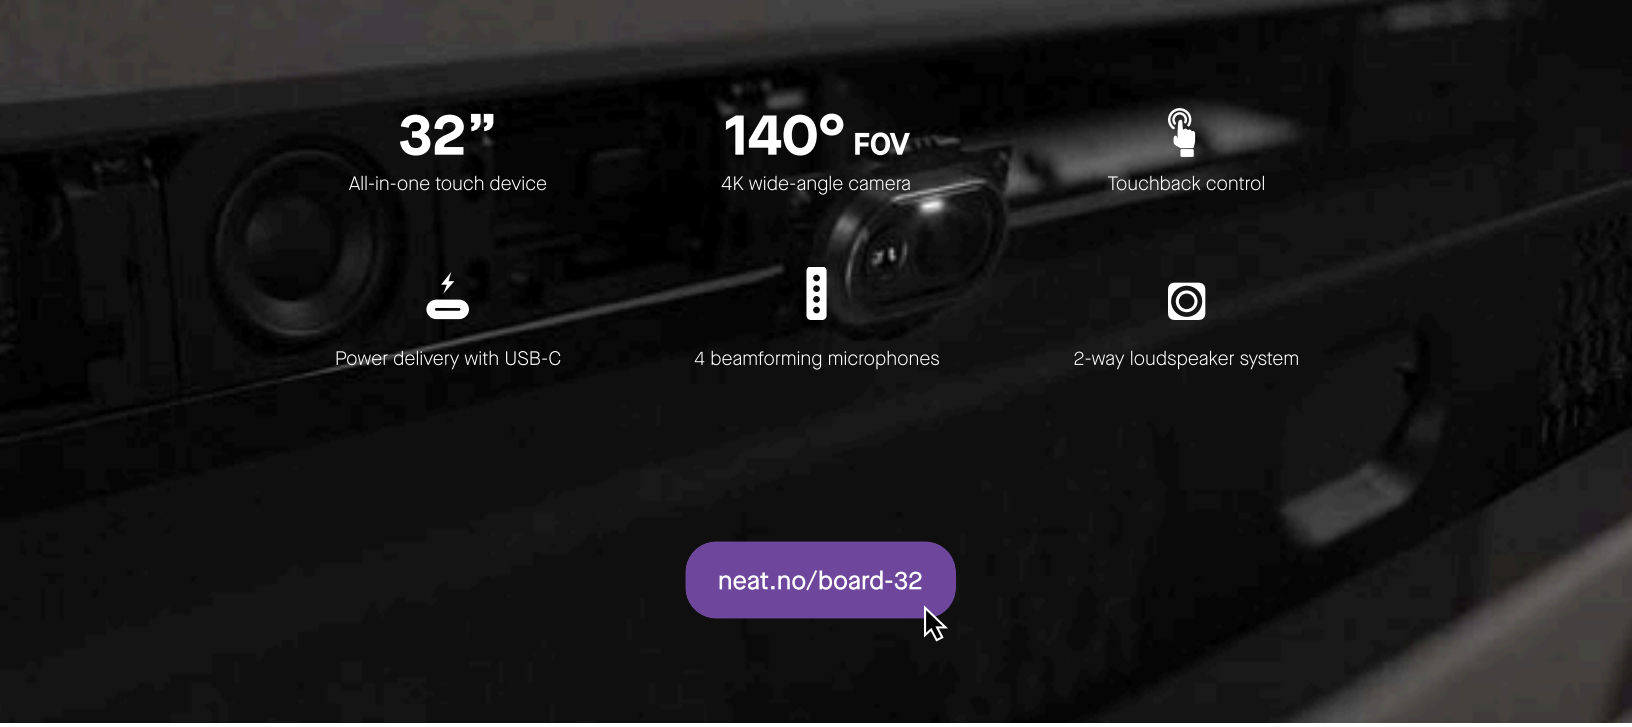

Capture the conversation.

Neat Board 32 delivers closer, more natural, face-to-face engagement by using machine learning to intelligently frame meeting room participants, enabling them to feel immersed in conversations. Rich, directional audio picks up people's every word while cutting out background noises, so everyone's equally seen, heard, and understood.

Simple remote management.

Neat Pulse provides IT with complete visibility and control over Neat Board 32 and all other Neat devices, spanning deployment, updates, and more. Create standard or custom configurations, remote access, and manage updates from a centralized platform. Upgrade to premium plans for enhanced support and extended warranty coverage.
