

Run the room.

Neat Pad Pro elevates how meetings come together. As a meeting room controller or scheduling display, it gives teams effortless command and IT a simple, scalable way to manage rooms. With a bold 10-inch touchscreen, built-in microphones, and intelligent processing, it enhances audio, sharpens control, and improves accessibility—so meetings run more smoothly and sound clearer.

Use Neat Pad Pro inside the room as a **meeting controller** to start or manage meetings with a single touch, or mount it outside as a **scheduling display** to see room availability at a glance and book a space. The RGB light bar makes room status visible from across the hall, so everyone knows when a space is free.

neat.

Hear everyone. Every time.

Powerful dual microphones and AI-powered audio processing enable Neat Pad Pro to act as an additional listening point in the room, enhancing voice pickup and delivering clearer sound for everyone on the call. Seamlessly integrating with the main front-of-room Neat device, it ensures everyone can hear each other clearly.

Platform support. Future-ready performance.

Neat Pad Pro gives you fast, easy access to leading native platforms—including Google Meet, Microsoft Teams, and Zoom—along with our Neat Open solution. Powered by our advanced P2 platform, it delivers 8x the performance of the original Neat Pad, with increased memory and faster processing to support today's and tomorrow's software features, integrations, and partner innovations—while enabling a longer service life with fewer replacements.*

*Microsoft Teams will be available first as a console for meeting control with Neat OS. Booking and scheduling via Microsoft Teams panels will be enabled later through MDEP.

Designed with purpose. Built to last.

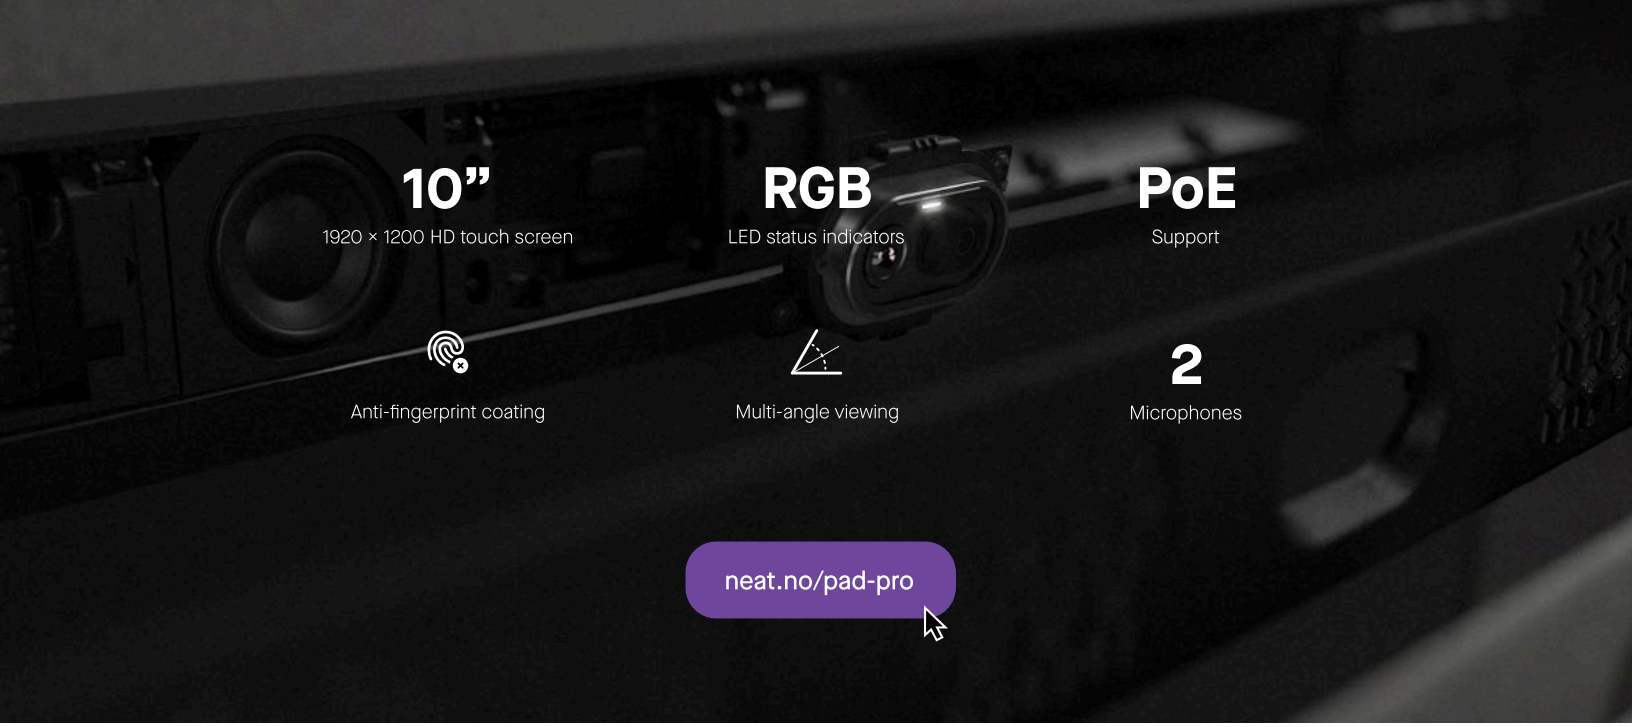

Neat Pad Pro is where intelligence meets intuition. Its 10-inch silky-smooth, anti-glare, fingerprint-resistant display, adjustable angles, large scalable fonts, and clear screen reader features make it accessible to everyone. Housed in a 100% recycled aluminum casing, its simplified internal design reduces parts, packaging, and weight. Built-in sensors also monitor air quality, humidity, and VOCs—helping create healthier, more efficient workplaces.*

*We're working to achieve independent certification.

Set up fast. Stay in control.

Neat Pad Pro comes ready to rock, with everything you need to get up and running in minutes. Its cleverly designed, multi-purpose mounting bracket works on walls, tables, or mullions, while a single Power over Ethernet (PoE) cable keeps setups clean and simple. Manage your entire deployment remotely with Neat Pulse—create configurations, apply updates, and streamline control from one intuitive dashboard.

Neat Pad Pro

General

10.1-inch (diagonal) touchscreen
1920 × 1200 screen resolution
16:10 aspect ratio
Anti glare, anti fingerprint coating
Ambient light sensor
Sensors for temperature, humidity, and VOC Index*
RGB side LED Indicators
3D Accelerometer
Wall mount, glass mount and side mount
Security lock slot (Kensington compatible)
Native support for Zoom Rooms
Native support for Microsoft Teams Rooms on Android**
Native support for Google Meet (room controller)
Speakers for ultrasound*
2x microphones

*Feature not supported by Microsoft Teams
**Microsoft Teams will be available first as a Console for meeting control with Neat OS

Networking and ports

WiFi 6E
USB-C (for debug)
Ethernet 2.5 Gbps (supports PoE)
Power adapter for AC (optional)

Size and weight

Width: 9.5 in (242 mm)
Height: 6.3 in (161 mm)
Depth: 1.9 in (48 mm)
Weight: 1.87 lb (850 g)

Electrical and environmental requirements

Power over Ethernet (PoE): 802.3af PoE (Class 0/mode A/B)
56V ⎓ 0.275A
Ambient operating temperature: 32° to 95° F (0° - 35° C)
Storage temperature: -4° to 140° F (-20° to 60° C)
Relative humidity: 10% to 90%
