| Main Ground Lugs (AWG/kcmil Al/Cu)         | (2) #6-350                                                                                                                                                                                                                                                                                                                                                                                                         |
| Additional Notes                           | (1) ReliaMod main fusible switch modules include a UL489 molded case switch for on/off function and line side provisions for class T fuses for overcurrent protection. Class T fuses are not included and are to be provided and installed by others. (2) An alternate XT7 frame lug kit is available as needed, catalog # RXT7LUGKIT750, which can accommodate up to (3) 500-750kcmil cables per phase & neutral. |
| Height (Inches)                            | 54.9                                                                                                                                                                                                                                                                                                                                                                                                               |
