15kV	600A Deadbreak Cam-Op Alignment Bracket	650CAB
------	---	--------

650CAB Cam-Op Alignment Bracket

Applications:

The 650CAB Cam-Op alignment bracket is a stainless steel piece of hardware that fits over the K650LBM3 mountable insulated bushings. It is used to guide the link to the mating K655LR elbows or K655BE bushing extenders. It also serves as the guide for the 650LK-C Cam-Op link allowing it to lock into place or unlock.

Features:

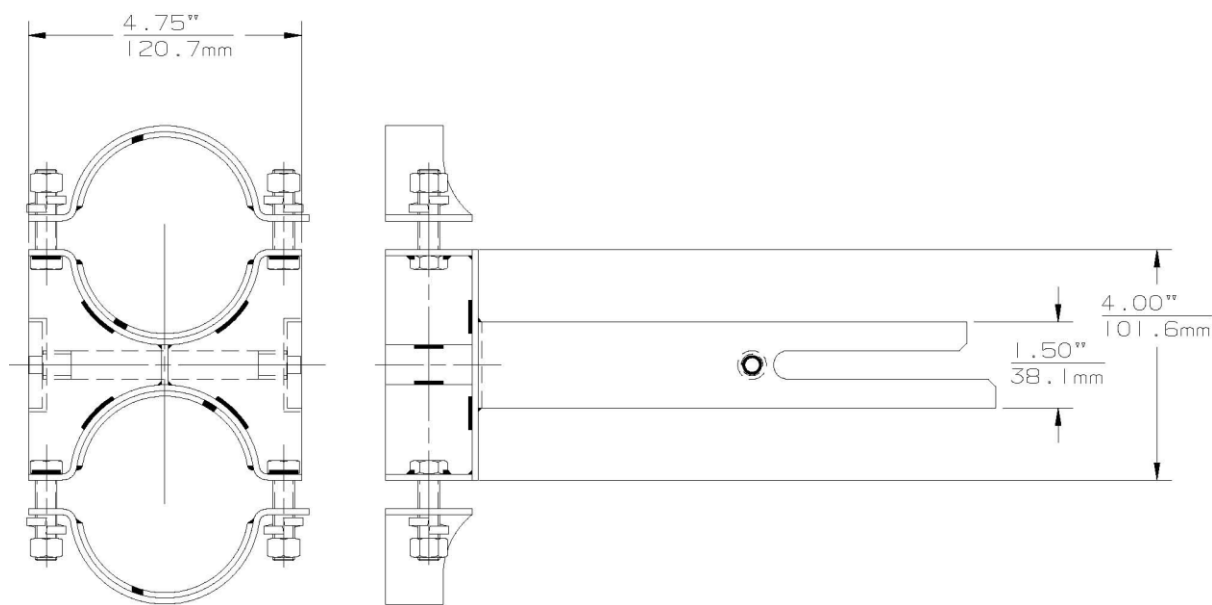

- Part of assembly that can be easily connected or disconnected using standard hand tools and equipment in a de-energized state
- Optional accessories allow visible external separation, by-pass, isolation, dead-ending, grounding, and testing as well as adding taps, surge arrestors, and circuit protection
