

15/25kV	600A Deadbreak Bail	650BA
---------	---------------------	-------

Applications:

The **650BA** bailing assembly kit consists of a modified hold down bail for securing Elastimold® K655YDR to any "I", "Y", or "H" bus bar. This assembly provides positive hold down force on the insulating cap minimizing the possibility of cable movement in the mating parts to dislodge the insulating cap from the apparatus bushing.

Ratings:

Not Applicable-Mechanical Connections

Each kit contains the following:

1	Bail Assembly	650BA
1	Instruction Sheet	IS-0498
1	Bracket	650-390

Ordering Instruction:

To order, specify **650BA** Deadbreak Bail.
