15/25/35kV	Direct Voltage Test Meter Adapter for: HD Electric Meters	200A	200TC-1
------------	--	------	---------

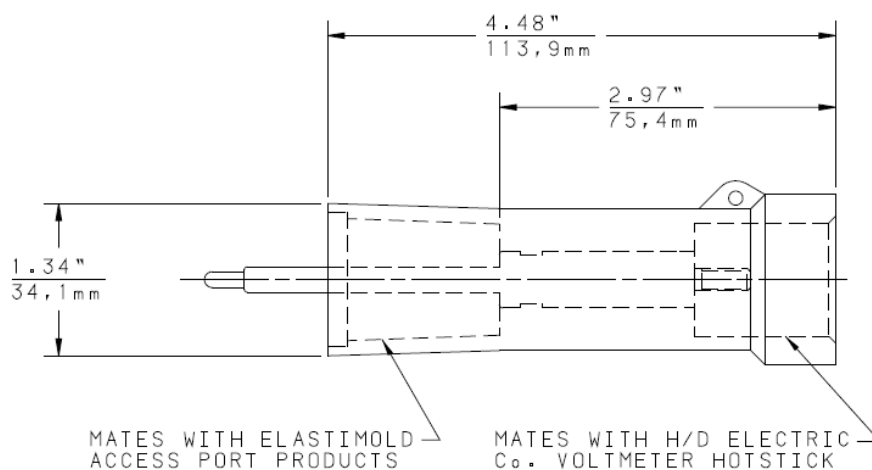

200TC-1 Direct Voltage Test Meter Adapter for: HD Electric Meters

Applications:

The 200TC-1 is a direct voltage test port adapter for all loadbreak or deadbreak connectors with a direct access port to a maximum line-to-ground voltage of 21.1 kV. It is designed for use with the H/D Electric Co. Mark I thru Mark IX Voltmeter/Phaser only.

Ordering Instructions:

To order a Direct Voltage Test Meter Adapter for HD Electric Meters, specify **200TC-1**.

Each kit contains the following:

- | | | |
|---|-----------------------------------|---------|
| 1 | Direct Voltage Test Meter Adapter | 200TC-1 |
| 1 | Instruction Sheet | IS-1083 |
| 1 | Silicone Lubricant | 82-08 |
