15/25kV	200A Deadbreak Bail	150TB2
---------	---------------------	--------

Applications:

The **150TB2** bailing assembly kit consists of a modified hold down bail for securing Elastimold® tee splice K150T to a K150DP Deadbreak insulating plug. This assembly provides positive hold down force between the tee splice and the insulating plug.

Ratings:

Not Applicable-Mechanical Connections

Each kit contains the following:

1	Bail Assembly	150TB2
1	Instruction Sheet	IS-0008

Ordering Instruction:

To order, specify **150TB2** Deadbreak Bail.
