

Catalog No. THQL1115AX

Description: THQL 1P 10KAIC 120/240V 15A AFCI-X

UPC No 783164719994

Home > Circuit Breakers > Residential Circuit Breakers

Q-line plug-in circuit interrupters are one-inch wide per pole, compact, thermal-magnetic devices designed for residential and commercial applications in ReliaHome™ load centers. These breakers feature quick-make / quick-break mechanisms and easy to spot trip indication to ensure safety and reliability. Combination arc fault circuit interrupters (AFCI) provides protection against overloads, short circuits, parallel arcs, and series arcs. AFCIs electronically identify unique current and voltage characteristics of dangerous arc faults and de-energize the entire circuit when one occurs. The THQL1115AX circuit interrupter is a 1 pole breaker rated at 15 Amps, with an interrupting rating of 10kAIC, and a voltage rating of 120/240Vac.
