Key Features and Benefits

- 14-gauge steel construction (100 lb **capacity**) provides reliable support for patch panels, switches, and lightweight rack equipment.
- Adjustable depth design (12" to 18") allows flexible mounting of equipment without disassembly.
- Hinged wall bracket design provides rear access for installation, servicing, and cable management.
- One (1) pair of 10-32 threaded 19" mounting rails (EIA-310 compliant) supports standard rack equipment and consistent mounting.
- Rear cable access with multiple tie points supports organized cable routing in wall-mounted installations.
- Self-squaring, knock-down design ships unassembled for easier handling, reduced shipping cost, and simplified installation.
    - Includes starter hardware pack with (25) 10-32 screws (**SCREW1032-25**) for equipment mounting.
- TAA-compliant, manufactured in North America supports government procurement requirements and ensures consistent quality.
- Black powder coat finish (GREENGUARD, TSCA, RoHS compliant) supports indoor air quality and environmental compliance.

The APB Series adjustable depth wall bracket provides a flexible solution for mounting 19-inch rack equipment in telecom and IT environments. With a hinged design for rear access and adjustable depth from 12 to 18 inches, it supports installation, servicing, and cable management without requiring a full cabinet.

Constructed from 14-gauge steel with a 100 lb load rating, the APB Series is ideal for structured cabling, patch panel mounting, and network equipment installations where space is limited and flexibility is required.

When another product may be a better choice

- When you need a fixed, low-cost wall bracket with a cover, consider our **RB-CW** Series.
- When you need a wall bracket with an integrated shelf for additional equipment support, consider our **APBS** Series.
- When you need a hinged wall bracket with extended mounting options or larger equipment support, consider our **HWMR** Series.
- When you need a simple two-post wall bracket for minimal equipment mounting, consider our **RB-2PW** Series.

Accessories

- Rack Panels for Rack Optimization
- Rack Mount Keyboard & Equipment Shelf
- 10-32 Mounting Hardware
- We Manufacture PDUs and Outlet Strips
- Universal Rack Shelf Fixed Steel (Up to 200 lb Capacity)
- Hook and Loop Cable Straps Pre-Cut 96 Inch
- Hardware for Rack Mounting Solutions
- Ground Stud Kit

	Overall Dimensions		Rack	Mounting Dimensions		
Part No.	Height	Width	Units	Width	Min Depth	Max Depth

What's in the Box

Qty Included	Description	Replacement Part No.
1	Rear wall-mounting hinged section	
1	Rear non-hinged section	
2	Sliding Rails	
1	Assembly Instructions	
25	10-32 x 0.75in Rack Mounting Screws	SCREW1032-25
10	10-32 x 3/8 Assembly hardware	

Where the APB series works best

- Telecom backboards and network demarcation points.
- Small network closets with limited depth.
- Wall-mounted patch panel and switch installations.
- Retrofit installations requiring adjustable depth.

Applications and when to use the APB series

- Installations requiring adjustable depth for varying equipment sizes.
- Applications needing rear access for servicing and cable management.

- Installations where rear access is needed without a full cabinet.

- Environments where open mounting is preferred over enclosed cabinets.
- Deployments requiring cost-effective mounting with flexibility.
- Installations with limited space but need for structured cable routing.
