Hinged Window Rack Security Cover *RMSC Series*

Lockable hinged rack panel designed to protect equipment while maintaining visibility and access.

TAA COMPLIANT

EIA STANDARDS

MANUFACTURED IN NORTH AMERICA

RoHS

Key Features and Benefits

- 16-gauge steel construction provides durable protection for rack-mounted equipment.
- Hinged design allows installation without removing existing rack equipment, simplifying upgrades and retrofits.
- Integrated lock with key prevents unauthorized access to front-panel equipment.
- **Smoked acrylic window** allows clear visibility of equipment status and indicators without opening the panel.
- Designed to fit standard 19-inch EIA-compliant rack rails for universal compatibility.
- Available in multiple rack unit sizes (2U, 3U, 4U) to match equipment requirements.
- Helps prevent accidental contact, tampering, or unauthorized adjustments.
- Ideal for shared environments, public installations, and compliance-driven applications.
- TAA-compliant, manufactured in North America within an ISO 9001 certified facility.
- Black powder coat finish (GREENGUARD, TSCA, RoHS compliant) supports environmental and durability requirements.

The RMSC Series rack security cover panels provide a secure solution for protecting rack-mounted equipment from unauthorized access. Featuring a hinged steel frame with a smoked acrylic window, they allow equipment visibility while restricting physical access. Designed for easy installation without removing existing equipment, the RMSC Series is ideal for data centers, telecom rooms, and shared environments where equipment protection and controlled access are critical.

Accessories

- Hardware for Rack Mounting Solutions
- Wing Knob Latch
- Rack Rail Reducer Panel 23 to 19 Inch Rack Adapter Conversion Panel

	Overall Dimensions			Mounting Dimensions	
Part No.	Height	Width	Depth	Rack Units	Height
RMSC1902BK1	3.47	19.00	1.61	2U	3.50
RMSC1903BK1	5.22	19.00	1.61	3U	5.25
RMSC1904BK1	6.97	19.00	1.61	4U	7.00

Where the RMSC Series Works Best

- Data centers and server rooms
- Telecom and network installations
- Shared IT environments
- Public or semi-public rack deployments
- Compliance-driven installations

Best Applications for the RMSC Series

- Securing rack-mounted equipment from unauthorized access
- Protecting front-panel controls and connections
- Maintaining visibility of equipment status while restricting access
- Preventing accidental contact or tampering
- Adding physical security to shared rack environments
