Key Features and Benefits

- 16-gauge steel construction (130 lb capacity) provides reliable support for switches, patch panels, and rack-mounted equipment.
- Swing-out wall-mount cabinet design (19" rack compatible) provides front and rear access for installation and servicing.
  - Includes two (2) pairs of square-hole punched 19" mounting rails and a starter pack of (25) M6 screws and cage nuts (for 10-32 hardware, see **CAGKIT** Series).
- Hinged swing-out mechanism allows full rear access for cable management and equipment maintenance.
- Locking front door with enclosed design provides physical security and controlled access.
- Rear access when extended simplifies cable routing and serviceability.
- RoHS compliant supports environmental compliance requirements.

The RB-SW Series swing-out wall-mount cabinet provides secure housing for 19-inch rack equipment with the added benefit of rear access for installation, servicing, and cable management. Its hinged design allows the cabinet to swing away from the wall, making it ideal for network closets and telecom rooms where accessibility is required.

Used in structured cabling and IT deployments, the RB-SW offers a balance between enclosure security and serviceability, making it a practical solution for installations that require frequent maintenance.

When Another Product May Be a Better Choice

- When you need a fixed cabinet with no rear access requirements, consider our **RB-FW** Series.
- When you need deeper depth options for larger equipment, consider our **RB-SWDV** Series.
- When you need higher load capacity with UL2416 and seismic load ratings, consider our **HWC** Series.
- When you need environmental protection against dust or water, consider our **NWC** or **NWM** Series cabinets.

Part of the Rack Basics® line designed for simple, reliable, and affordable installations.

Accessories

- Horizontal Cable Manager Ring Style
- Horizontal Cable Lacing Bar Steel Cable Support Bar
- Rack Cabinet Cooling Fan Kits
- We Manufacture PDUs and Outlet Strips
- Horizontal Cable Management Bar Steel Cable Support Bar
- Universal Rack Shelf Fixed Steel (Up to 200 lb Capacity)
- Hardware for Rack Mounting Solutions

	Overall Dimensions			Rack	Mounting Dimensions		
Part No.	Height	Width	Depth	Units	Height	Width	Depth
RB-SW9	19.90	23.62	21.65	9U	15.75	19.00	16.13
RB-SW12	25.15	23.62	21.65	12U	21.00	19.00	16.13
RB-SW15	30.40	23.62	21.65	15U	26.25	19.00	16.13
RB-SW18	35.65	23.62	21.65	18U	31.50	19.00	16.13

Note: Mounting Dimensions / Usable Depth is the maximum equipment depth that will allow the center section of the cabinet to swing out unimpeded.

Where the RB-SW Series Works Best

- Network closets requiring rear equipment access.
- Telecom and data communication rooms.
- Office and commercial IT environments.
- Structured cabling installations.
- Applications requiring frequent servicing or reconfiguration.

Applications and when to use the RB-SW Series

- You need rear access for cable management and servicing.
- Equipment installations require frequent maintenance or reconfiguration.
- You want an enclosed cabinet with improved accessibility.
- Space is limited but serviceability is critical.
