

Beijer Electronics is a multinational, cross-industry innovator that connects people and technologies to optimize processes for business-critical applications. Through designing and manufacturing human machine interface terminals and automation software, Beijer’s solutions range from operator communication to automation and digitalization. In many cases, Beijer products and interfaces will retrofit into legacy machines.

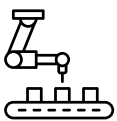

Products:

- HMI panels
- Web HMI and SCADA
- Marine monitors and PCs
- Software
- CloudVPN gateways
- Converters and IIoT gateways
- Industrial data communication
- Control systems
- Distributed IO
- Programmable Logic Controllers (PLCs)

Operator Panels

Industries:

Automation & Controls

Energy

Infrastructure

Maritime & Offshore
