

Carlo Gavazzi is a market leader in capacitive proximity sensor technology with one of the broadest and advanced portfolios in the industry. Carlo Gavazzi's deep catalogue includes solid states relays, sensors, monitoring relays, energy metering and management products, contactors, motor controllers, and fieldbus systems. Since technology is leaning toward renewable energy, Carlo Gavazzi is also a huge dealer in sustainable solutions. Carlo Gavazzi invests in research and development operations so that all products meet the specifications of the demanding industry standard requirements.

Products:

- Sensors
 - Cables — quick disconnect
 - Capacitive sensors
 - Inductive sensors
 - Level sensors
 - Magnetic sensors
 - Photoelectric sensors
 - Safety modules
 - Sensors with IO-link
 - Ultrasonic sensors
- Switches
- Limit & safety switches
- Power supplies
- Relays — mechanical
- Solid state relays
- Controls
 - Current/voltage/phase energy meters
 - Meters for EV charging
 - Current transformers
 - Digital panel meters
 - Timers

Capacitive Sensors

Industries:

Contact Gross Automation to find the ideal solutions for your unique needs and applications. We supply the engineering expertise and product knowledge customers have relied on since 1990.
