

HPS is a leading North American manufacturer of dry-type transformers, offering a wide range of standard and custom products for global export. Serving industries like oil & gas, mining, steel, construction, and wind power, HPS excels through technical design strength, product breadth, and manufacturing capabilities. With over one million engineering designs and a reputation for reliability, HPS products are found worldwide, even in space. Over 100 years, HPS has grown from a small family business to an industry leader, with facilities in Canada, the U.S., Mexico, and India, and nine regional warehouses across North America.

Distribution Transformer

Products:

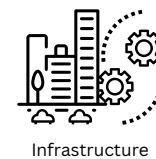

- Control & automation transformers
- Power transformers
- Reactors
- Power quality & filters
- Low voltage distribution
- Chokes & reactors
- Medium voltage distribution
- Specialty
 - Autotransformers
 - Buck-boost transformers
 - Low voltage lighting transformers
 - Mini power centers
- EV charging station transformers

Passive Harmonis Filter

Industries:

Contact Gross Automation to find the ideal solutions for your unique needs and applications. We supply the engineering expertise and product knowledge customers have relied on since 1990.
