

Integra is invested in the development, production and commercialization of polycarbonate and metal enclosures to meet the highest safety standards set forth by the National Electrical Manufacturers Association (NEMA). Integra's waterproof and weatherproof enclosures guard the apparatuses inside the temporarily submerged and wet environments found in the marine industry. Guarding electronics against the elements is of the utmost concern to Integra. Integra Enclosures remain focused on providing the best and most innovative products and services, world class customer service, and the quickest and most consistent delivery in the world.
