

With over 80 years of experience, Molex is the leader in interconnect solutions across various industries, including automotive and telecommunications. Through unmatched engineering expertise and ongoing customer collaboration, Molex is uniquely able to deliver superior, high-quality products to market quickly. Five percent of annual sales is invested in R&D, incorporating predictive technologies and automation for efficient product development. Molex's Intelligent Digital Supply Chain (IDSC) initiative enables real-time response to market changes and supply chain constraints.

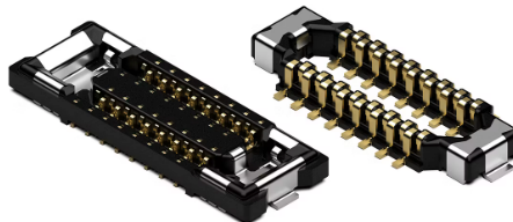

Products:

- Advanced packaging
- Antennas
- Application tooling
- Automotive connectivity
- Building infrastructure
- Cable assemblies
- Capillary tubing - polymicro
- Connectors
- Electrical products
- FPGA computing systems
- Printed electronics
- RF isolators & circulators
- Optical solutions
- Sensors
- Wire & cable

Sensors

Connectors

Industries:

Alternative Energy

Communication

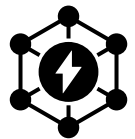

Data Centers

HVAC

Industrial Machinery

Power Distribution

Contact Gross Automation to find the ideal solutions for your unique needs and applications. We supply the engineering expertise and product knowledge customers have relied on since 1990.
