

Patton Electronics is an American electronics manufacturer specializing in a wide range of electronic solutions. Their focus areas include Unified Communications, Cloud technologies, IoT-enabling solutions, network equipment, and VoIP (Voice over Internet Protocol) products. It's up to your company to keep up with the ever-changing landscape of technological innovation. Patton has two main goals: to make connections and keep up with change. Patton's specialty is interconnecting yesterday's cutting edge to the cutting edge of today.
