

Rex Power Magnetics specializes in designing and manufacturing electric transformers and related power magnetic products. Their extensive product range includes custom dry-type transformers, reactors, power transformers up to 15 MVA and 46 kV, distribution transformers, autotransformers, control and machine tool transformers, and custom enclosures. Renowned for their commitment to customization, the company excels in delivering custom-engineered transformers tailored to meet specific customer requirements.

Products:

- Control power & automation
- Reactors/indicators
- Low voltage distribution
- Low & medium voltage power
- Electrical insulators
- Surge arresters
- Enclosures
- Transformers

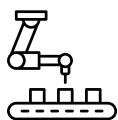

Mini Power Center

AC Line / Load Reactor
