

TE Connectivity has been providing advanced connectivity and sensor solutions across many industries for more than 80 years. TE is for industries that require products that are designed to optimize data, power, and signal throughput while improving tolerance in systems exposed to extreme environments.

Products:

- Antennas
- Application tooling
- Cable assemblies
- Connectors
- EMI & EMC solutions
- Energy & power
- Fiber optics
- Heat shrink tubing
- Identification & labeling
- Medical components
- Passive components
- Replays & contactors
- Sensors
- Switches
- Terminals & splices
- Wire & cable
- Wire protection & management

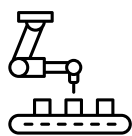

Outdoor Antennas

DisplayPort Connectors

Industries:

Automation & Controls

Data Centers

Electric Mobility

Industrial Machinery

Military

Oil & Gas

Contact Gross Automation to find the ideal solutions for your unique needs and applications. We supply the engineering expertise and product knowledge customers have relied on since 1990.
