

Westermo is a Swedish-based manufacturer of data communications solutions for demanding industries that is a well-known provider of switches, routers, extenders, modems, converters, and accessories. Westermo created the world's first DIN rail mount telephone modem, the TD-22, which pioneered remote access solutions for industrial devices like PLCs and HMIs. The application of Westermo products goes far beyond transport, water, and energy, so regardless of the nature of your communication challenges, you can rest assured that Westermo products can be configured and installed to create cost-effective, reliable, and secure networks in even the harshest environments.

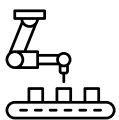

Products:

- Switches
 - Unmanaged
 - Managed layer 2
 - Managed layer 3
 - EN 50155
 - IEC 61850-3 substation
 - PoE
 - Rackmount
- Managed extenders
- Point-to-point extenders
- Layer 3 switches & routers
- Cellular LTE routers
- Broadband DSL routers
- Serial converters & repeaters
- Ethernet media converters
- Fibre optic modems
- Cellular gateways & routers
- Legacy modems
- Power supplies
- SFP transceivers
- M12 USB backup devices
- Accessories

Ethernet Switches

Industries:

Automation & Controls

Communication

Energy

Maritime & Offshore

Rail
