

Danfoss is a global leader in AC drives, recognized for over 50 years of innovation, technical expertise, and a strong commitment to sustainability. As the first company to mass-produce AC drives in 1968, Danfoss has consistently pushed the boundaries of drive technology. Their extensive experience has shaped a portfolio of high-quality, application-optimized solutions that enhance process performance, reduce energy consumption, and lower emissions across a wide range of industries.

Products:

- Power solutions
- Climate solutions for cooling & heating
- Drives
 - Low voltage
 - Medium voltage
 - Decentral
 - Enclosed
- Motors
- Electronic controls
- Sensors & transmitters
- Switches
- Valves
- Hydraulic pumps
- Heat exchangers
- Monitoring
- Softstarters
- Gear motors

Low Voltage Drives

Motors

Industries:

Alternative Energy

Commercial Construction

Energy

Farming

Food & Beverage

HVAC

Maritime & Offshore

Water & Wastewater

Contact Gross Automation to find the ideal solutions for your unique needs and applications. We supply the engineering expertise and product knowledge customers have relied on since 1990.
