

GAM specializes in high-precision gear reducers, couplings, and linear mounting kits engineered for demanding motion control applications. With decades of experience and a commitment to flexibility, GAM delivers customizable, high-performance solutions for industries such as automation, robotics, and machine tools. Their products combine innovation, precision, and modular design to help engineers build better machines faster.

Products:

- High precision gearboxes for robotics
- Servo gearboxes & reducers
- Precision right angle bevel gearboxes
- Rack and pinion systems
- Servo couplings
- Linear mount products for actuators

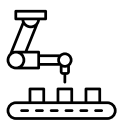

Gearboxes For Robotics

Servo Couplings

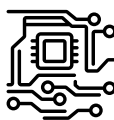

Industries:

Automation & Controls

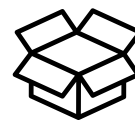

Communication

Electronics

Healthcare

Packaging

Contact Gross Automation to find the ideal solutions for your unique needs and applications. We supply the engineering expertise and product knowledge customers have relied on since 1990.
