Comprehensive networking solutions for enterprise IT and AV needs

VOLUME 25 - 1

WHO IS NETGEAR?

In business, confidence is everything. When it comes to your network, it's even more important. Whether you're a small business with big dreams or a mid-size business ready to take the next step, you need to share access and ideas safely, connect remote locations securely and give your people the tools to perform. At NETGEAR, we provide networking, storage and security solutions without the cost and complexity of big IT. Our advanced range of reliable, affordable networking products are easy to install and maintain. We deliver solutions you can count on, so you can spend more time on what matters most – growing your business.

MILESTONES

NETGEAR® ENTERPRISE

Enterprise-Class Business Solutions at the Right Price

NETGEAR Enterprise is the trusted partner of businesses around the world. We make it easy to do business with us, providing intelligent, right-sized solutions that anticipate business needs – ranging from networking and security to AV and IT.

Our goal is to deliver everything you need and nothing you don't, with simplified licensing, straightforward pricing, and no bloat. We believe achieving enterprise-grade performance should be effortless, because when your technology works seamlessly, your business can achieve the extraordinary.

Commitment to AV

We are committed to the consistent delivery of best-in-class connected network solutions for the broadcast, custom integration, and commercial AV markets. From our industry-leading product suite and unmatched service and support, the NETGEAR AV promise is to meet and exceed our commercial partners' requirements at any stage of their growth journey.

NETGEAR AV means solutions that fit your needs and your budget. Our comprehensive portfolio of switches, routers, and wireless access points enables you to find the combination of products you need now with room to expand for the future.

Brand Promise

Powerful connectivity to maximize your productivity, profitability and potential.

Industry-leading innovation

Easy to use

Modern & affordable

Industry-Leading Networking Solutions

SWITCHES

From entry-level essentials to fully integrated cloud-managed switches, NETGEAR leads the way by offering the most innovative, comprehensive, scalable, and affordable switching portfolio to fit every business need.

WIRELESS ACCESS POINTS

Cover your growing business with secure, reliable, and blazing fast WiFi. From simple, affordable, DIY WiFi to large, industrial areas, the NETGEAR Enterprise robust line of wireless products will maximize any network's potential.

ROUTER

The NETGEAR Pro Router is the perfect solution for modern businesses that demand always-on connectivity and effortless control from anywhere. It is designed with dual internet connections with automatic failover, advanced VPN support, and multi-gigabit ports to keep your network fast and reliable.

MANAGEMENT SOFTWARE

NETGEAR Insight is removing the headaches and hassles of IT with the broadest, most cost-effective, and easily scalable network-deployment solution available for businesses. Insight puts a complete, unified network in the palm of your hand. It delivers peace of mind, knowing you can always monitor and control your network devices with ease... anytime, anywhere.

WIRELESS

Wireless Product Categories

INSIGHT MANAGED

- Local or Remote management
- Wired installation with PoE
- Small and Medium businesses
- Advanced WiFi with roaming, load balancing
- Performance and coverage
- Multiple AP deployments

Insight Managed Use Cases

Schools - support hybrid learning and administrative operations with centrally managed WiFi across classrooms, offices, and common areas

Hotels - high-speed WiFi throughout guest rooms, lobbies, and meeting spaces, with remote configuration and monitoring for multi-site properties

Restaurants - reliable, secure WiFi for staff operations and guest access—indoors or on the patio

Conference centers - ensure uninterrupted service for attendees and organizers during events

BUSINESS ESSENTIALS

- Instant setup
- Single room usage
- Dual band equipped
- Great price/performance
- Separate guest access

Business Essentials Use Cases

Dedicated home office WiFi - for those working permanently at home.

Remote teaching - from arithmetic to yoga, connecting tutors with pupils.

College students' dorm rooms - with guest access for work and entertainment.

Small business and retail shops - with distinctly separate customer-facing and back-office spaces within the same unit.

Introducing One-Touch Wireless Visibility & Management

NETGEAR introduces the new IT revolution for small businesses with “one-touch connectivity” through our Insight Remote Management application. Experience easy set-up, remote management and full control of your wireless network. With nearly 30 years of experience in enterprise networking, NETGEAR is now delivering wireless connectivity that “just works” at your fingertips.

NETGEAR Insight enables multi-device configuration of your NETGEAR Insight Managed wireless access points, either locally or remotely. It provides network management, monitoring and service deployment across multiple remote and local sites for the easiest and most user-friendly wireless networking experience. Anywhere management also includes Insight Managed switches and Insight Managed Wireless Access points, enabling whole network visibility and management. Insight app also allows you to discover select wired and wireless devices from your local or remote network.

NETGEAR
INSIGHT

WiFi 7

WiFi 7 delivers faster speeds (5x faster than WiFi 6E), lower latency, and more reliable connections with features like multi-band operation, wider channels, and smarter interference management—perfect for busy business environments. NETGEAR's WiFi 7 access points make it easy to deploy scalable, future-ready wireless networks. Backward compatible and built for the most demanding business needs, WiFi 7 sets a new standard for connectivity.

WIFI 7 APPLICATIONS

Examples of wireless applications that benefit from WiFi 7's improved features:

- Ultra high-speed demands – ideal for environments with heavy data use like 4K/8K streaming, AR/VR, and large file transfers
- WiFi 7 Devices – the latest smartphones, laptops with Intel BE200/BE202 chips, latest flagship Android devices, and upcoming AR/VR headsets
- Real-time applications – perfect for low-latency needs like video conferencing, cloud collaboration, and interactive experiences

WiFi 7 For All Businesses

EDUCATION

Modernize learning experiences with increased data transfer speed and ultra-low latency for students and staff.

CORPORATE OFFICES

From warehouse to meeting rooms and cubicles, establish speedy connections for the whole office

HOSPITALITY

Tackle congestion and interference in areas with densely packed devices or neighboring networks that overlap, such as in hotels or restaurants.

RESIDENTIAL

Enjoy smoother high resolution content, including immersive AR and VR environments and gaming.

Wireless Access Points

Business Essentials

MODEL	WAX210
Product Description	Standalone WiFi 6 AX1800 Dual Band AP
Typical Deployment	Small offices, home business
Wireless Standard	802.11ax
Bands	Dual
2.4 GHz	Yes
5 GHz	Yes
6 GHz	No
TX by Rv	2x2
Throughput per Radio (Mbps)	600/1200
Max Clients (Standalone)	128
Max Clients (Managed)	256
Ethernet Ports	1
Port Speed	2.5 GbE
PoE	PoE+ (802.3at)
Antenna Type	Internal
Antenna Gain (dBi)	4.1 / 4.6
External Antenna Connectors	No
Enclosure Material	Plastic
Mounting Options	Wall, Ceiling
Max Power Consumption (W)	15.3
Deployment Options	Standalone
SSIDs	4
WEP	No
WPA2-PSK/AES	Yes
WPA3-Personal	Yes
802.1X	Yes
Rogue AP Detection	No
WIDS/WIPS	No
WDS	Yes
Repeater	Yes
Point-to-Point/Multi-Point	No
Simultaneous Bridge/Client Assoc.	No
Captive Portal	Yes
VLANs	Yes
MAC ACL	Yes
802.11e/WMM	Yes
Rate Limiting	Yes
Bandwidth Management	Yes
Beamforming	Yes
IPv6	Yes
Bandsteering	Yes
Warranty	5 years

NETGEAR Insight Cloud-Management Solution

Insight Pro for Our Partners

Insight Pro is a Cloud platform that makes Network as a Service (NaaS) possible for our partners. NETGEAR now offers the possibility to have both hardware and services that you can manage, monitor 24/7, and provide support for customers.

Ease of Use, Rich Features and Security

MULTI-TENANCY & MULTI-LOCATION

- One Insight Pro account can centrally manage from a single view
- Roles & responsibilities definition

WIFI ROAMING & CAPABILITIES

- Instant mesh setup for Access Points
- Instant WiFi
- Fast roaming & security
- Captive portal

AUTOMATED DEPLOYMENT & UPDATES

- Firmware updates scheduling
- PoE Scheduling
- Network-level setting Save & Copy for speedy deployment of new network locations

EASY CONFIGURATION & MANAGEMENT

- VLANs, LAGs, PoE, SNMP
- WiFi configuration
- Branded automated Custom Reporting specifically tailored for both internal users and end-customers
- Network Cloning

REMOTE PROVISIONING

- Centralized device configuration
- PoE & port configuration
- Instant VPN to linkup branch offices and multi-sites and provide employees secure remote access

ADVANCED SECURITY

- Two-factor authentication
- Cloud security

Unique Efficient Multi-Tenant Model

Insight Pro is built for scalability and growth. With multi-location & multi-tenant capabilities you can easily set up all the networks for your customers and as an admin give everyone specific rights depending on their role (Manager, Owner).

Move to a Profitable Recurring Revenue Model

Leverage technology to set up 24x7 customer network monitoring & make up for lost hardware margins with increased service revenue

- Move to recurring revenue model to raise profitability
- Leverage cloud technology to reduce investment
- Automate & replicate low value, mundane tasks to increase efficiency and scale your business
- Get full visibility and proactively react on your customer networks to improve customer satisfaction and customer retention

How it Works for VARS and MSPS

NETGEAR Insight Services

Further enhance your network management with NETGEAR Insight advanced services covering guest WiFi, and security. Get the most of your network in the simplest and fastest way with NETGEAR Insight add-on services.

Insight API

The Insight Cloud REST API is accessible to partners and MSPs, allowing you to utilize your own management tools seamlessly. Leverage the Insight Cloud REST APIs for automation purposes or to integrate into JAVA, JavaScript, GO, C#, Ruby, and PHP applications.

NETGEAR Instant Captive Portal

According to consumer surveys, consumers expect WiFi access at any businesses where they spend over two minutes waiting for service. In exchange of providing free WiFi service, businesses can receive commercial value for owning customer information and having the ability to communicate and engage with customers directly with Instant Captive Portal.

Instant Captive Portal is an organized portal that enhances the business image, credibility and status, and thereby increase the registration and usage rate of the business' "public WiFi". Instant Captive Portal gives maximum flexibility to the business owners to customize the splash pages, based on their business characteristics and the desired outcome of the customer interaction through captive portal and receive real-time visitor data and analytic insights including name, email, demographic info, frequency of visits, etc.

ROUTER

End-to-End Excellence

Complete your networking ecosystem with the NETGEAR Total Network Solution. Combine the excellence and ingenuity of NETGEAR networking hardware with the power and ease of use of Insight Remote Cloud Management platform to build your complete solution.

NETGEAR PR60X PRO ROUTER: 10G/MULTI-GIGABIT DUAL-WAN PRO ROUTER WITH INSIGHT CLOUD MANAGEMENT

The latest addition to our Total Network Solution. With Multi-Gig capabilities, a flexible SFP+ port and Dual-WAN failover protection, the PR60X provides affordable, uninterrupted connectivity 24/7.

- 10G/Multi-Gigabit and 2.5G Dual-WAN ports with failover and load balancing
- High performance hardware with one 10G/Multi-Gigabit Ethernet port, four 2.5G Ethernet ports and one 10G SFP+ port for long-distance backhaul or connection to ISP fiber modem
- Seamless integration with NETGEAR Pro WiFi Access Points and select Smart switches through NETGEAR Insight Cloud Management
- Control, manage and monitor through NETGEAR Insight
- Rack-mountable for placement in industry-standard enclosures
- Firewall protection
- IPSec Site-to-Site/Client-to-Site VPN, OpenVPN and WireGuard to create secure VPN connections
- 3-year hardware warranty, 3-year next business day replacement, 90-day phone/chat support

**TOTAL NETWORK
SOLUTION**

Small Office - IT Business PR60X

Headquarters - Regional Offices - IT Business PR60X

NETGEAR PR60X Pro Router Technical Specifications

FEATURES	PR60X
Connectivity	
Gigabit Ports WAN/LAN	1 x 10G/Multi-Gigabit Copper (Configurable LAN/WAN) 1 x 2.5G/1G RJ-45 (WAN) 3 x 2.5G/1G RJ-45 (LAN) 1 x 10G/1G SFP+ (LAN)
DMZ Interfaces (Configurable)	Yes
Dual WAN Failover	Yes
Dual WAN Load Balancing	Yes
Performance	
LAN-to-WAN Throughput	For 2.5G WAN port, LAN-to-WAN throughput is 2.4Gbps For 10G WAN port, LAN-to-WAN throughput is 9.4Gbps
Maximum Number of VLANs	32
Concurrent Connection Limit	60,000
Concurrent Client Limit	2,000
Security	
Firewall Functions	Firewall Traffic Rules/Scheduling, Port Forwarding, Port Triggering, Stateful Packet Inspection (SPI), Port/Service Blocking, Denial-of-service (DoS) Prevention, Stealth Mode, Block TCP Flood, Block UDP Flood, Respond To Ping on Internet Port
VoIP SIP ALG	Yes
Networking	
ISP Address Assignment	DHCP, Static IP Assignment, PPPoE
NAT Modes	NAT
Routing	Static, Dynamic, RIPv1, RIPv2
DHCP Server	32
Concurrent Clients	2,000
Concurrent Connections	60,000
VLANs (Up to 32)	802.1Q
Essential Networking Features	MAC Address Cloning/spoofing, NTP Support, UPnP, Auto Uplink on Switch Ports
QoS	Smart Queue Management
mDNS Gateway	Yes
Concurrent clients	Yes
Link Aggregation Group (LAG)	Yes
LLDP	Yes

NETGEAR PR60X Pro Router Technical Specifications

VPN	
Maximum VPN Throughput	Site-to-Site 4.42 Gbps using 2.5G WAN; 8.92 Gbps using 10G WAN; Client-to-Site 500 Mbps
Protocol	IPSec Site-to-Site, IPSec Client-to-Site, OpenVPN Client-to-Site, WireGuard
IPsec Encryption/Authentication	3DES, AES (128, 192, 256 bit)/SHA-1, SHA-2 (256 bit), MD5
Key Exchange	IKEv1, IKEv2, Pre-shared Key
Access Modes	Remote access via Insight Remote Cloud Management
Management	
Management Options	Insight Remote Cloud Management
Logging	Accepted Packets, Dropped Packets Statistics, System, Source MAC filter, Session Limit, Bandwidth Limit, IPsec VPN
Log Delivery	Insight logging
Troubleshoot	Diagnostics Ping, DNS Lookup, Trace Route, Speed test
Maintenance	Save/Restore Configuration, Restore to Factory Defaults, Firmware Upgrades, Display and Monitor Statistics
Hardware	
Processor	Quad Core ARM A73 @ 2.2 GHz Packet Process Engine (PPE) processors
Flash Memory/RAM	2GB DDR4/4GB eMMC
Major Regulatory Compliance	Environment: RoHS Safety: CE/LVD, CSA EMI: FCC Part 15 Class B, CE mark
Temperatures	Operating Temperature: 0° - 40°C (32°-104° F) Storage Temperature: -20° - 70° C (-4° - 158° F)
Humidity	Operating humidity 90% maximum relative humidity, non-condensing Stor- age humidity 95% maximum relative humidity, non-condensing
Electrical Specifications	AC Input: 100-240V, 50/60Hz, 1.3A
Dimensions (W x D x H)	17.3x3.9x1.7in (440x100x43.2mm)
Weight	3.34lb (1.513kg)
System Requirements	Cable or DSL Broadband Modem, Internet Service, Windows Client Device, Internet Explorer/Firefox/Chrome/Safari Web Browser

SWITCHING

NETGEAR® AV

NETGEAR Features the Most Comprehensive, Scalable and Affordable Switching Portfolio

UNMANAGED

Plug-and-Play switching for organizations in need of instant connectivity. No management required.

EASY SMART MANAGED

Entry level management for essential services. Set priority for voice, video and other data traffic for enhanced service and performance.

SMART MANAGED

For growing organizations needing more refined control, incorporating secure setup, access and automated management of prioritized voice, video and data traffic.

SMART MANAGED CLOUD

All of the capabilities of our Smart switches with additional option to remotely manage/monitor using Insight Cloud management.

FULLY MANAGED

For larger networks where granular control is required to minimize traffic congestion and performance bottlenecks, fully managed switches offer advanced control.

Just Pick the Switch That's Best for You!

Power-over-Ethernet with NETGEAR®

FROM WIRELESS ACCESS POINTS TO NETWORK SWITCHES, NETGEAR PROVIDES A RELIABLE, AFFORDABLE, SIMPLE POE SOLUTION FOR YOUR BUSINESS.

Power-over-Ethernet (PoE) is a revolutionary technology that is quickly being adopted by devices such as VoIP phones, IP video surveillance, and wireless access points. PoE supplies not only data but also power through that same Ethernet cable, allowing for easier deployment of devices and greatly reducing electrical wiring requirements.

Over time, multiple PoE classes were created to satisfy the power needs for different types of PoE devices.

PoE: Delivers 15.4W per port to power simple IP phones, IP cameras and wireless access points.

PoE+: Delivers 30W per port to power IP phones, WiFi 6 (802.11AX) access points, pan-tilt-zoom cameras, etc.

PoE++: PoE++ enables powerful installations with PoE budgets up to 60W or 90W per port for connections of higher power required devices, such as WiFi 6 (802.11AX) wireless access points, smart building lighting, audio speakers and pan-tilt-zoom cameras. Future proof with PoE++ and help prevent the slowing down of the WiFi 7 wireless access points.

****NETGEAR's exclusive FlexPoE allows you to increase the PoE budget of the switch simply by purchasing a larger Power Supply.**

PoE CLASS CHART				
PoE Class Chart	Min. power levels the PSE needs to provide	Min/Max power available to the PD ²	Class Description	Powered Devices (PD)
0 ¹	0.44W	0.44W-12.95W	Default power (15.4W)	Any that don't specify their class
1	4.0W	0.44W-3.84W	Very low power	IP Phone
2	7.0W	3.84W-6.49W	Low power	IP Camera
3	15.4W	6.49W-12.95W	Mid power	Wireless Access Point, video phone
4 (PoE+)	30.0W	12.95W-25.50W	High power	PTZ IP camera, dual-band 11ac or 11AX Wireless AP
5/6 (PoE++)	60.0W	25.5W-51W ³	Ultra high power	LED lighting, Audio Speakers, AV encoders, PTZ cameras, WiFi 6 (11AX) high-end Access Points
7/8 (PoE++)	90.0W	25.5W-71W ³		

Follow the P!

A P in the model name of NETGEAR unmanaged, easy smart managed, and smart managed switches is your guide to PoE!

We made these switches easy to find.

www.netgear.com/poe

¹ Default if not specified by device

² The maximum power delivered to the device is affected by the length of the Ethernet cable between the switch and the device, which creates losses, hence the difference between the maximum power allocated for the device, and the maximum power delivered to the device.

³ Extended power capability allows PD input power to reach up to 60W for Type 3 and up to 90W for Type 4 if channel length is known.

Experience the Most Comprehensive and Affordable Full 10-Gigabit Business Switch Portfolio

CONNECTIVITY MATTERS MORE EVERY DAY!

Network connectivity is the new utility. As water runs out of the tap flawlessly, network data is expected to do the same. Users want to be able to connect with any device, anywhere and anytime with high quality, super-fast connections and no downtime.

10 drivers for 10-Gigabit networking

Modern applications, wireless device expansion and IT optimization are now moving 10-Gigabit connectivity to the top of Enterprise IT teams' priorities. The increase in mobility, voice and video combined with virtualization and the doubling of data every 2 years are some of the main drivers for bottlenecks that are occurring in parts of the network not previously seen with Gigabit connectivity. 10-Gigabit is the new Gigabit!

NETGEAR 10-GIGABIT PORTFOLIO

NETGEAR is the leader in the 10-Gigabit Enterprise switch market with the most versatile and comprehensive offerings in the market at the most affordable price points. Enjoy the highest security and scalability, massive performance and absolutely no downtime with our high-end 10-Gigabit switches. NETGEAR has you covered with a uniquely comprehensive portfolio of highly flexible and scalable full 10-Gigabit switches that fit every business need. From 28 to 48 ports, featuring both copper and fiber options, 1U full width and 1U half-width (for more efficient use of rack space), NETGEAR is unrivaled in the choice it offers business customers looking for 10-Gigabit switching. The future of networking is now!

FOLLOW THE X!

An X in the model name at NETGEAR is your guide to faster speed! An "X" at the beginning = Full 10-Gigabit connectivity! An "X" near the end = 10-Gigabit uplinks on switches. We made them easy to find.

Unlock your network potential with 5-speed networking!

Modern, high-performance network devices such as 5G network cards, gaming computers, desktop computers, servers, network attached storage (NAS) devices, or IEEE 802.11ac Wave 2 wireless access points are capable of 2.5-Gigabit or 5-Gigabit connectivity. With the existing Gigabit and 10-Gigabit Ethernet standards, these devices’ potential is wasted:

- The existing Gigabit and 10-Gigabit Ethernet standards do not allow speeds between 10 Gbps and 1 Gbps. If you connect an 802.11ac Wave 2 wireless access point or other Multi-Gigabit-capable device to a 10-Gigabit switch port, the connection automatically downgrades to 1 Gbps because the device cannot achieve 10 Gbps.
- The existing 10-Gigabit Ethernet standard requires Cat 6A or better Ethernet cable for lengths up to 100 meters (328 feet). However, most existing cabling is only Cat 5e or Cat 6, and re-wiring can be costly.

Multi-Gigabit Ethernet switches solve all these issues, supporting any device attached to the switch, to work at the speed of the port to which it is connected (2.5 Gbps or 5 Gbps). The maximum speed over Cat5e cabling is 5Gb, and 10Gb for Cat6 or better, with backwards-compatibility with 100Mbps and 1Gb. So, a business can easily mix and match different speeds on the same network, to make the most of each connected device’s capability and without sacrificing the performance of either.

Give the speed that your devices need

5 TIMES FASTER USING THE SAME CABLING

	1G	2.5G	5G	10G
CAT 5e	√	√	√	
CAT 6	√	√	√	55m Limit
CAT 6A	√	√	√	√

Multi-Gig vs 5-speed, what is the difference?

MULTI-GIG PORT: intelligent port that automatically adapts to the speed required and can provide 100M/1G and 2.5G and/or 5G connectivity (NBASE-T standard)

5-SPEED PORT: intelligent port that automatically adapts to the speed required and can provide either one of the 5 networking speeds: 100M /1G / 2.5G / 5G or 10G.

AV

Overview

NETGEAR's AV solutions are engineered specifically for broadcast IP and commercial AV over IP installations. In today's AV over IP world, the need for robust, reliable, and efficient network solutions is more critical than ever. NETGEAR's AV solutions span switching, routing, and WiFi with products delivering exceptional performance and reliability.

NETGEAR AV switches are optimized for AV over IP, featuring the unique NETGEAR AV OS™ built into each switch and also available as the free NETGEAR Engage™ software—making them the ideal choice for commercial, broadcast, and custom integration projects.

With nearly 500 Pro AV and Broadcast partners, no other switch manufacturer matches the ease of setup with certified profiles for virtually every audio, video, lighting, or control protocol in use today.

NETGEAR has also built global Pro AV and Broadcast design services teams with deep IT and AV expertise. From consultation to final implementation and beyond, these experts work closely with engineers to ensure every network infrastructure is fully optimized for performance and efficiency.

CERTIFIED PARTNERS (PARTIAL LIST)

The following list of NETGEAR broadcast and Pro AV partners ensures your AV over IP installation will be successful. All of these partners work with us to make certain that our switches work with their products. Our Engineering Services team has worked with these manufacturers to provide you with peace of mind when it comes to your deployment.

NETGEAR® AV

FREE AV Network Design Services

NETGEAR offers free network design services to support partners as they design and deploy professional audio and video solutions which require IP networking infrastructure.

Our experts will help design the perfect commercial, broadcast, or custom integrated AV solution.

This includes:

Product Recommendations

Get the right switches, access points, and router you need for your installation.

Network Design

Guard against any on-site pitfalls with improper coverage, uplinks or switches.

Troubleshooting

Solve any problems in the moment with a direct line to NETGEAR engineers.

Training & Support

Learn from the experts through pre-installation training, post-installation support and every solution in between.

Contact the Engineering Services team: ProAVDesign@netgear.com

NETGEAR® ACADEMY

Technical Training

At NETGEAR we believe in working with our integration partners and end users to empower them with the knowledge to be more self-sufficient. As part of this commitment, we offer free training courses at our online Academy.

From technical training on AV over IP topics to general business networking concepts, this Academy provides the skills you need to become better equipped for the challenges of today's world of networking.

AV Certifications: Master AV over IP, multicast, and troubleshooting to deploy and manage AV networks.

Business Certifications: Gain expertise in WiFi, cloud management, and NETGEAR Insight to optimize wireless networks.

Most courses offer valuable AVIXA Renewal Units and provide a Certificate of Completion for you to download.

Warranty	5 year	5 year	5 year	5 year	5 year

Tray Accessory

MODEL	PST4310
Product Description	Half-Width PSU Tray
PSU Compatibility	Support up to 2 x APS254W
Switch Compatibility	M4350-8M2XV (MSM4310)
Warranty	5 year

Modules and Accessories for Switches

Accessory Power Adapters

Increase or decrease your PoE budget anytime by simply upgrading your switch Power Supply, without having to purchase a new switch. Future-proof your PoE budget with GS108LP or GS116LP. And if you have power-hungry devices and directly need a high power PoE switch, buy GS108PP or GS116PP. This unique combination from NETGEAR Business makes these switches the most adaptive in the market.

The following table describes the Accessory Power Adapters which are sold separately and is only compatible with NETGEAR products for GS108LP, GS108PP, GS116LP and GS116PP only.

SWITCH MODEL	POWER ADAPTER MODEL	POWER ADAPTER WATTAGE	PoE+ POWER WATTAGE
GS108LP (Comes w/67.5W PA)	EPS90W EPS130W	90W 130W	83W 123W
GS108PP (Comes w/130W PA)	EPS90W EPS130W	90W 130W	83W 123W

MOBILE BROADBAND

Security and Connectivity for Your Business

4G/5G MOBILE HOTSPOTS

Nighthawk® Mobile Routers deliver gigabit 4G LTE or 5G speeds, enabling mobile businesses to efficiently operating anywhere, regardless of whether it is at a temporary or permanent location.

- Dedicated hotspot device to connect up to 32 WiFi devices to 4G LTE speeds.
- Utilize waiting time efficiently while in-transit.
- Download or upload information for file sharing or collaboration.
- Maintain data security and employee usage accountability, avoiding the risk of using unprotected public WiFi.

4G/5G HOME OFFICE WIFI

Orbi 5G and 4G LTE Advanced Tri-band Mesh WiFi Router delivers fast Internet speeds from the 5G or 4G LTE mobile network. Access 5G or LTE as your primary Internet connection, or count on 5G or LTE as your reliable failover solution.

- Insert a Nano SIM card from your preferred provider. Certified with AT&T, T-Mobile, and Verizon; not compatible with Sprint.
- Maintain business continuity when wired Internet such as fibre, cable or DSL are unavailable or disrupted. Seamlessly switch to 5G or LTE.
- NETGEAR Armor™ to guard your business network and connected devices with advanced cyber threat protection.

INSIGHT PRO FOR MOBILE HOTSPOTS

NETGEAR mobile hotspots are ready to be managed remotely by Insight right out of the box.

- Bulk device onboarding and unified device profile setup
- Remotely onboard and configure your hotspot with organization-specific policies
- Protect device ownership by organization with secure authenticated device claiming process
- Supports multi-tenancy, allowing IT managers and MSPs to logically organize supported devices
- Remotely view usage statistics, cellular signal strength, and battery levels

4G LTE MODEMS

The NETGEAR 4G LTE Modems provide instant 4G LTE connectivity for all your devices and equipment in temporary worksites, or can act as a backup to your primary broadband network for avoiding service disruptions when your fixed wireline connection goes down.

LTE connectivity for business needs:

- Interim solution to fixed line service.
- Retail locations with payment processing.
- Temporary offices such as construction sites.
- Enterprise server room.
- WAN port feature will be enabled with future firmware upgrade.
- Certified with AT&T, T-Mobile, and Verizon. Not compatible with Sprint.

SUPPORT

ProSupport for Business

COMPREHENSIVE SUPPORT PLANS FOR MAXIMUM NETWORK UPTIME AND BUSINESS PEACE OF MIND

- 24/7 live technical support and consultation
- Direct, scheduled access to product experts to help in configuration

MORE THAN JUST SUPPORT — A BUSINESS PARTNERSHIP

NETGEAR's ProSupport for Business offerings provide you with peace of mind by extending and enhancing the standard warranty or support coverage included with your product purchase. With ProSupport, you get 24/7 direct access to NETGEAR technical support engineers who can rapidly resolve technical issues both big and small. Connect with the people that have built your products and build the relationship that will contribute to your business success.

ONCALL 24X7 TECH SUPPORT

NETGEAR extends your initial 90-day technical support with the OnCall 24x7 Tech support package. OnCall 24x7 services are conducted by phone, chat and email, to solve any of your technical challenges.

With an OnCall 24x7 Tech support contract, customers will have a dedicated ProSupport Hotline to call for high priority service, with a less than four-hour* response or call-back time. Technical support requests receive high priority escalations for issue resolution.

Please note that OnCall 24x7 Tech support contract purchases are non-refundable.

PROFESSIONAL CONFIGURATION AND SETUP ASSISTANCE

Schedule an appointment for a live consultation by an expert to configure, set up, or re-configure your device.

ZERO COST - INCLUDED WITH HARDWARE PURCHASE ¹	WITH OPTIONAL PROSUPPORT ONCALL 24X7 CONTRACT

24x7 Online Chat Tech support ^{3,4} - Select NETGEAR Business Products	24x7 Online Chat Tech support ^{3,4} - For length of contract

* Except in cases of force majeure events such as war, natural disaster, strike, and other circumstances beyond reasonable control. During local non-business operating hours, English-only speaking personnel may provide the technical support.

¹ NETGEAR SMB products come with a limited warranty that is valid only if purchased from a NETGEAR authorized reseller, and covers unmodified hardware, fans and internal power supplies. Requires product registration within 90 days of purchase; see <https://www.netgear.com/about/warranty> for details. Void if product has been modified or damaged in any way. Does not apply to software or external power adapters.

² Limited lifetime hardware warranty and 24/7 Online Chat Support ends 5 years after product EOL date. Does not cover software. Does not apply to external power adapters.

³ 24x7 technical support is offered in English only; all other regions follow local business hours.

⁴ 24x7 Online chat Tech support duration varies by product. For Limited Lifetime Warranty products, online chat support duration ends with latter of hardware warranty or paid ProSupport OnCall 24/7 contract expiration.

⁵ Varies according to the duration of the ProSupport contract.

Pro WiFi Design Services

From a small business to a multi-level, luxury estate, our team of experts are standing by to help.

SITE SURVEY

Maximize WiFi signals throughout the installation area with a performance-centered site survey.

PRODUCT SELECTION

Get the right access points you need for your installation.

TROUBLESHOOTING

Solve any problems in the moment, on-site with a direct line to NETGEAR engineers.

TRAINING AND SUPPORT

Learn from the experts through pre-installation training, post-installation support and every solution in between.
